

## North Wiltshire Woodturners Association

### Club Night – 15<sup>th</sup> March 2017

During the demonstration given by **Richard Branscombe** – a number of work holding, tools and lights were mentioned. Please find below, a few web links to the sort of items referred to.

NOTE: eBay item numbers, prices and web links current as of 16<sup>th</sup> March 2017:

#### ER 20 Collets and Collet Holders:

##### eBay.co.uk:

Search for item number: **112313635023**

**MT1 shank** – from China - £7.99 incl.

Search for item number: **271492814405**

**MT2 shank** – from China - £8.05 incl.

Search for item number: **162025181250**

**ER20 Collets – set of 13** – located UK (?) - £16.97 incl.

**NOTE:** Remember, you will need to have a lathe with a hollow spindle headstock and will need to make a drawbar to keep the collet holder in place. Drawbar equals - a length of threaded/ screwed rod plus a spacer and a couple of hex nuts...

Also, if you do **not** have a bored through headstock spindle, there are parallel shank versions available – just hold in a chuck. Accuracy may be lost but you still have the convenience of a collet chuck.

Another collet chuck alternative might be (check spindle nose thread): Axminster Tools Junior Chuck (see: <http://www.axminster.co.uk/axminster-junior-chuck-ax22446>)

### Steb Headstock Drive Centre

The original trademarked/ patented **Stebcentre** is sold by Robert Sorby tools – they have always been very expensive (?) – starting price approx. £40.

Recently, **Axminster** Tools (see: <http://www.axminster.co.uk/axminster-evolution-series-pro-drive-ax958631> ) and **Chronos** (see: <http://www.chronos.ltd.uk/cgi-bin/sh000001.pl?WD=drive%20centre&PN=SCT%2dDrive%2dCentres%2detc%2html#a51209S02> ) – and probably other suppliers - have released (cheaper) variations on the original design.

### Henry Taylor Decorating Elf tool

For example - see Axminster Tools part number: 952453, current price: £46.96 - <http://www.axminster.co.uk/henry-taylor-decorating-elf-952453>

Also, additional/ spare cutters on the same page.

Any supplier of Henry Taylor tools will also have this item.

### Small LED Magnetic lamp

See: [www.woodart-products.co.uk/3\\_Lights.php](http://www.woodart-products.co.uk/3_Lights.php)

Price: £20 + £4 P&P

**Serious NOTES:** As usual – do your OWN research and make your OWN decisions. None of the above is a recommendation.

Further, Google is your friend (usually...) and Amazon (or eBay or Axminster) is NOT always the cheapest...
