

North Wiltshire Woodturners Association (NWWA)

Terms and Conditions for Hire of Club Equipment

1. The Club Member hiring the equipment (the hirer), is signifying their agreement to and compliance with these terms and conditions by adding their signature to the bottom of this document.
2. Any equipment hired remains the property of NWWA at all times and must be returned immediately on request.
3. The minimum equipment hire period is for one month running from one monthly meeting to the next. Club lathes, however, are available for an extended hire period of 6-months at a reduced monthly rate.
4. The hire period must be paid for in advance and the equipment must be returned, when required for a Club or Workshop Event. The hire period will resume at the completion of the Event.
5. If a Club Member wishes to extend the hire period, they should communicate with the Equipment Manager to check that the equipment is likely to be available.
6. Fair wear and tear of the equipment from normal hobby usage is acceptable – however, the hirer should bear in mind that *“if you break it or lose it, you replace it”*. Any malfunction, damage or breakage of the equipment should be discussed with the Equipment Manager at the earliest opportunity.
7. The Club is unable to provide insurance cover for equipment being used outside of the Club premises. The hirer is expected to provide insurance cover for all equipment being hired whilst it is in their possession.
8. The hirer is expected to provide a secure, safe, and dry (rust free) environment for the equipment being hired. The equipment should be maintained in good condition.
9. When using paint, aerosol sprays, stains or colouring, the Club equipment must be protected from overspray or other contamination at all times.
