SWINDON GROUP

TOOLS WANTED

Do you have any tools you no longer need or want? Perhaps you have some cluttering up the shed or garage just gathering dust and going rusty! If you have why not donate them to a good cause, the long established national charity

TOOLS FOR SELF RELIANCE

Tools of virtually any type and in any condition gratefully received and almost nothing will go to landfill waste.

DONATED TOOLS ARE:

Refurbished to make up tool kits for a variety of trades that are shipped to a number of African projects to help create and sustain vitally needed local skills and trades and thereby helping communities to become more self-sufficient.

OR:

Those tools not on the 'most wanted' list or perhaps of a lesser quality are sole to help fund the cost of shipping tool kits to Africa, to pay for consumables in our workshop, or occasionally passed on to other like-minded charities.

Even tools that are beyond repair or refurbishment and of no practical use may have some residual scrap metal value so can still end up helping the cause. Any tools you wish to donate can be collected from you or dropped off at the following address:
